COMPANY INTRODUCTION

China Resources & Textile is catering its service to major garment buyers and makers by supplying high-quality fabrics from China. It is working as an agent for China's large mills. Currently, it represents eight such Chinese companies. These mills are located in Dalian to Shandong province in the north, and Shaoxing to Guangzhou in the South when major fabric orders are placed in Jiangsu, the textile hub of China. The mills we are working for are in Nantong and Changzhou including one in Hong Kong.

FABRIC PRODUCTION PROCESS

▲ **Warping and Sizing**

We have three warping lines and one sizing line and the capacity is one million linear meters per month.

▲ Weaving Capacity

We have 100 Air jet looms to meet the requirement for weaving higher-grade quality fabric.

▲ Solid and Yarn Dyeing

We are dyeing our fabric by continuous, semi-continuous and discontinuous method by Thermosol, padsteam and CPB dyeing machine. We use environment-friendly dyeing stuff and a full set of pollution control systems.

▲ Finishing Area

With an imported finish machine can do different finishes meeting customers' requirements in hand feel and special function. we can do a silky finish, carbon peach finish, wrinkle-free finish, ice cotton finish, paper touch finish, speed dry finish, anti-ultraviolet finish, etc.

Quality Control & Inspection

we follow the American 4-point system to check and control the fabric quality.

Laboratory Facilities

Our factory laboratory can do the normal test to guarantee the quality of production can meet the buyer's requirement. Our QC team controls the quality of every process of production by following the ISO9001 system.

Wrinkle Free Rating

Shrinkage
